

Image 1 - Add content

With various types not include in the manual – Because you are a full admin – you can add content for CHCs and you can add non-CHC on the general site / site map – hence why you are seeing multiple

- the information that we included in the content admin user manual is only information around adding general site content, not including chc content types (such as additional narrative, additional documents, etc). Who will be your content admin ?

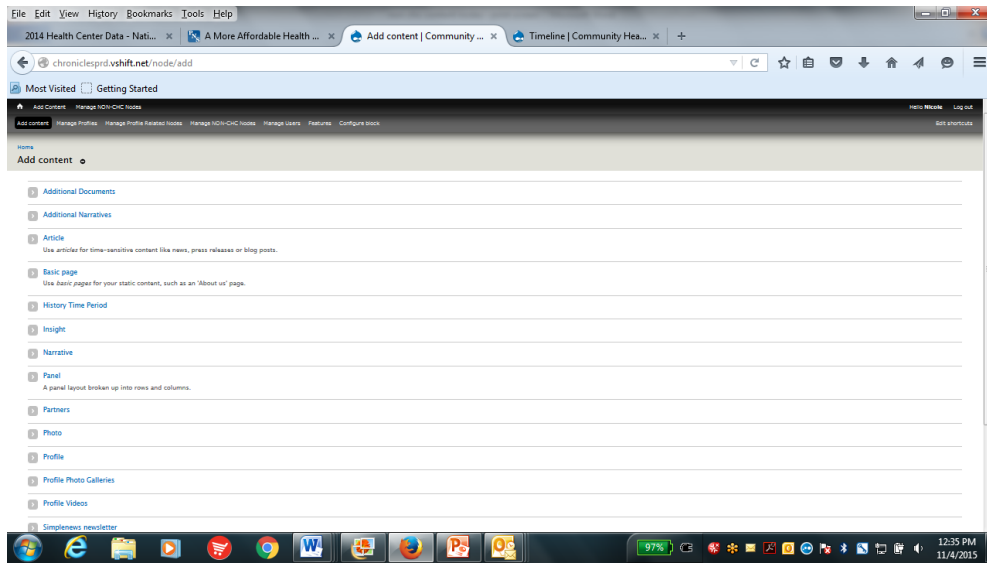

Image 2 - Search for “article” it seems only one associated item ? – **WE REMOVED THIS CONTENT TYPE**

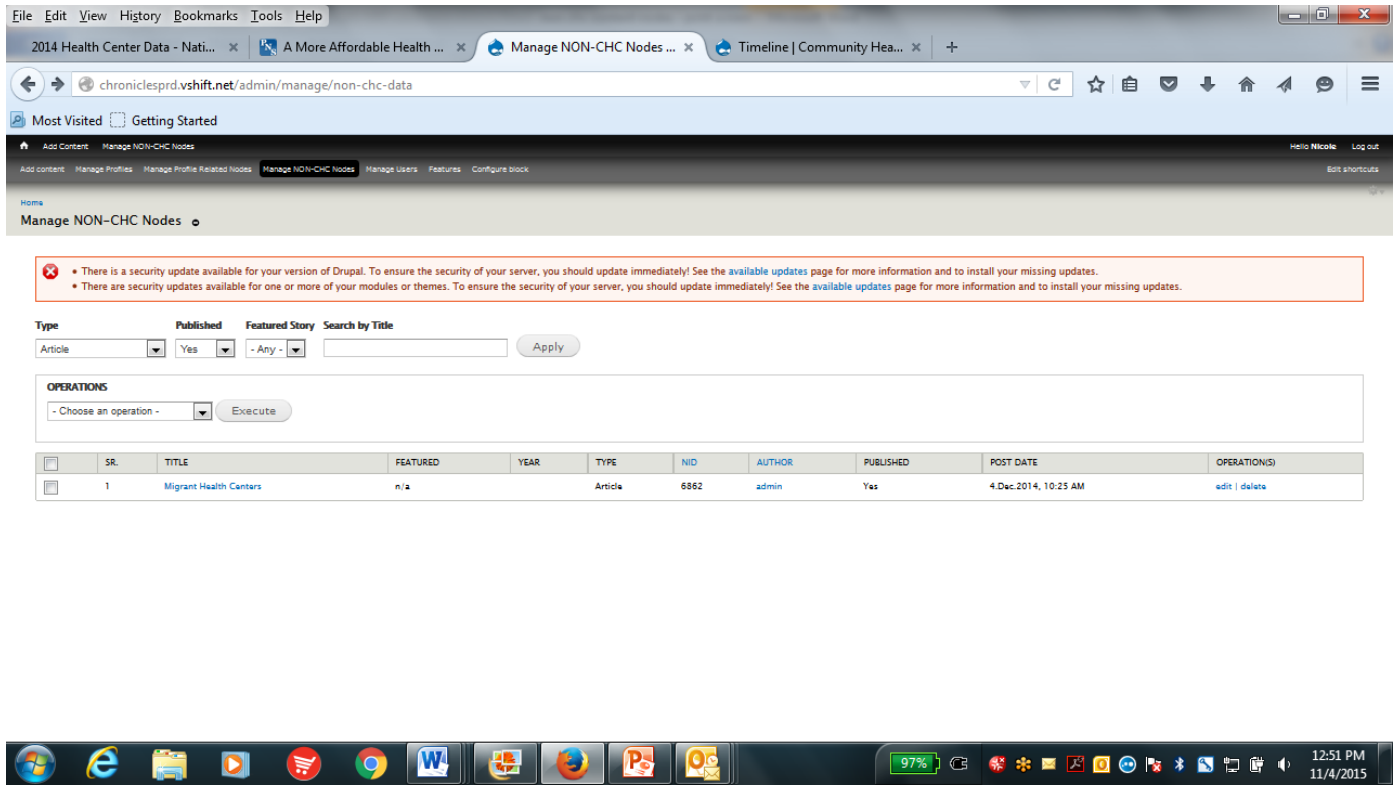

Image 3 - History Time Periods – start year and end year field s? Is end year nto used at all? Also see DATA POINT appearance - **1. Yes both start and end year fields are both used. 2. We advise AGAINST hardcoding the data point name**

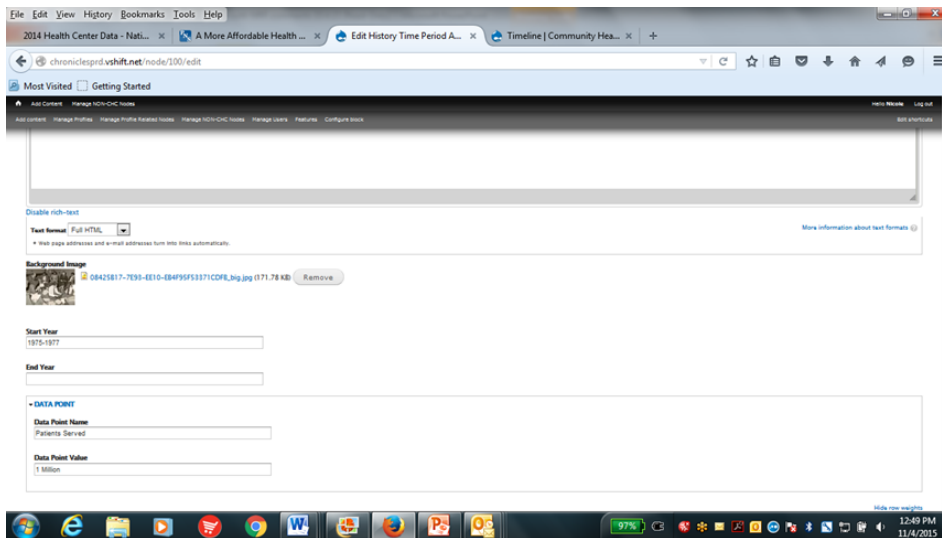

Image 4 - Search for “photo” - seems to include allChronicles beat stories – though these arent photos per se – (though they do have an associated image)

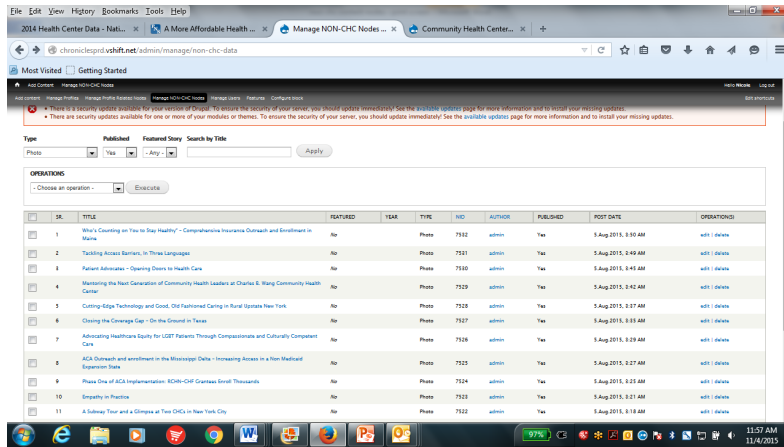

Image 5 - All"content Types" as displayed:

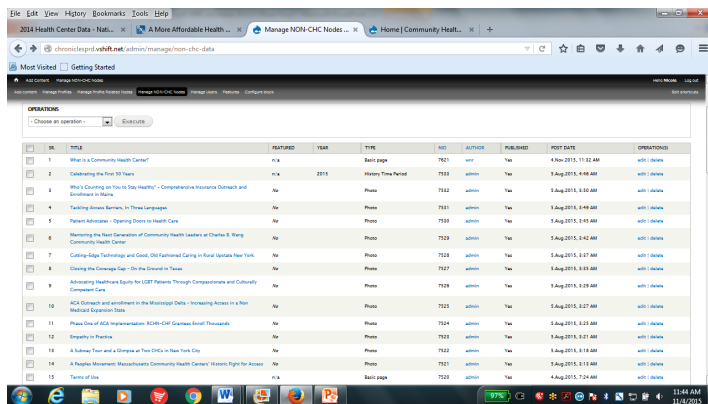

Image 6 Correction needed - see timeline 1987 – 1992

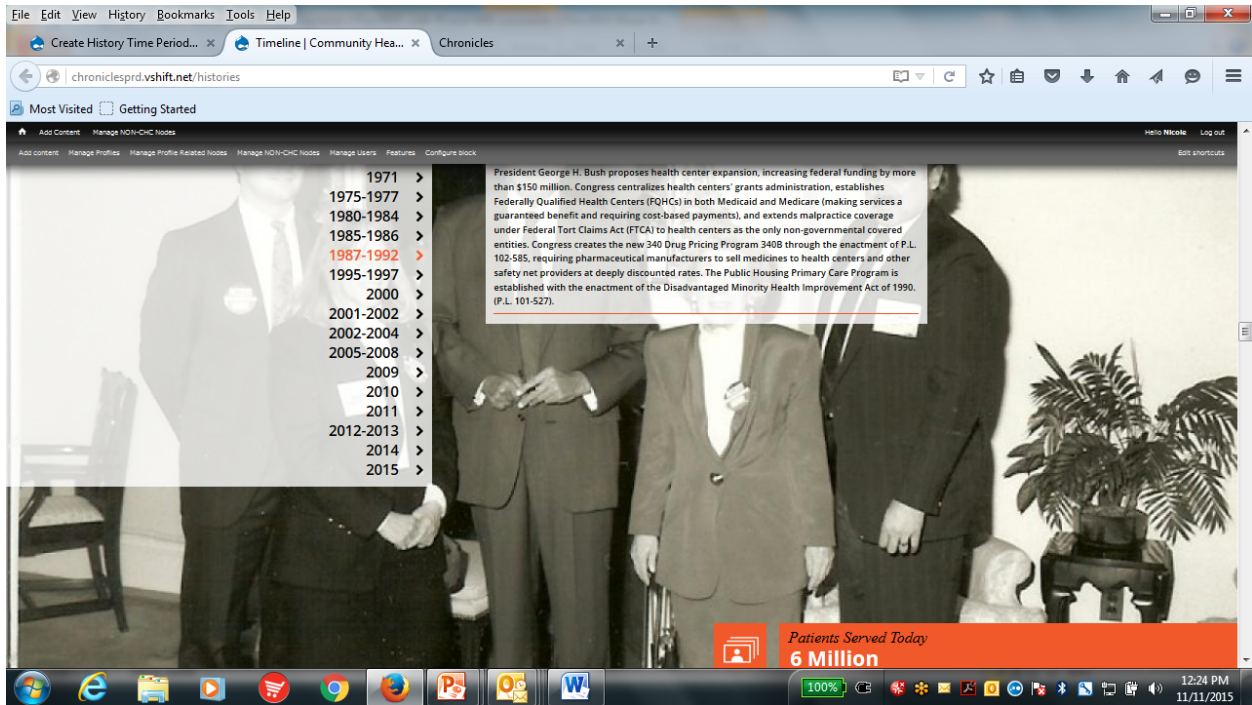

Image 7 from back end – adding photos and slideshows – some of the fields not clear especially when you are adding multiple photos. Where is Gallery Alternate Text, Title
